SUBMIT

Check the data that is filled in, for eg: Name of your school and address.

Long/lat coordinates are captured automatically.

In case there is no net connection at the place the data is entered, please click the submit button where there is connectivity.

Please click on "Click here to show on the map" . You will get a map like shown below.

- Identify if the school is visible on Google maps with these coordinates. This is done to capture accurate long/lat coordinates.
- Next capture pictures of School Building, Toilets both girls and boys and Kitchen Shed.
